TRENDSSET JOURNAL

The TrendSet Journal is published prior to the Munich-based TrendSet– International Trade Fair for Interiors, Inspiration and Lifestyle. It is a trade fair-preparatory and trade fair accompanying medium for the trade visitors. Besides the information about the fair, trade visitors will find an exhibitor listing from A-Z, the individual hall plans as well as product pages with an editorial selection of the illustrated new products* clearly arranged according to product categories.

This medium is sent by mail to around 20,000 qualitative trade visitors in German-speaking countries in the run-up to the trade show. In addition, the journal will be published on the website. The link to the e-magazine will be sent to the mailing list consisting of the TrendSet trade visitor database with more than 80,000 qualified contacts.

TRENDSSET365

As a TrendSet exhibitor, you can benefit from the additional, free online platform for more sales and product presence. TRENDSSET365 is the search engine optimized Online Inspiration area of TrendSet. It shows 365 days a year around the clock all products, innovations and trends of the current and coming

seasons. And thus creates the best possible inspiration for trade visitors to prepare for the trade fair and place their orders.

TRENDSSET TREND BLOG

What is the trend for the next and following order seasons? In the TrendSet TrendBlog you get an idea. We give you an outlook on the coming trends and trend products. Here you will find inspiration, information, designs and styles from the areas of living, eating, leisure and giving.

TRENDSSET SOCIAL MEDIA

In the social media channels Instagram, Facebook and YouTube, we post selected products and scenes from our exhibitors in the context of trends and trend colours to give trade visitors a trend outlook.

TRENDSSET NEWSLETTERS

The bilingual TrendSet newsletters inform domestic and foreign trade visitors in the run-up to the fair and provide important information on planning for the fair.

*The selection and publication of product images is the responsibility of the TrendSet editorial team.

BRIEF CHARACTERISTICS

The bilingual TrendSet newsletters inform domestic and foreign trade visitors prior to the fair and provide important information on planning for the fair.

READERSHIP

Before each fair, five TrendSet newsletters are sent out to around 80,000 selected specialist retailers in Germany and neighbouring countries. The basis for the list of recipients is the trade visitor database, which is updated with each trade fair. The fair is a trade visitor-only event.
